

Name of the Disease	Peste des Petits Ruminants
List Update Date	30.01.2025

CN CODE	NAME OF THE SUBSTANCE
01.02	Live cattle
01.04	Live sheep and goats
0106.13.00.00.00	Camel
0106.19.00.90.00	Others (ruminant mammals only)
02.04	Sheep and goat meat (fresh, chilled or frozen)
02.06	Edible offal of cattle, sheep, goats only (fresh, chilled or frozen)
0208.90.30.00.00	Meat of game animals (excluding rabbits) (fresh, chilled or frozen) (Only ruminant wild game meat and edible offal)
0208.90.60.00.00	Reindeer meat
0208.90.98.00.00	Meat and offal of other animals, fresh, chilled or frozen (meat and edible offal of ruminant wild animals only)
02.10	Meat and edible offal (salted, pickled, dried or smoked) edible flours and meal of meat and offal (ruminant animals only)
04.01 (1)	Milk and cream (not concentrated, not containing added sugar or other sweetening matter)
04.02 (1)	Milk and cream (concentrated, containing added sugar or other sweetening matter)
04.03 (1)	Buttermilk, curdled milk and cream, yoghurt, kefir and other fermented or acidified milk and cream (whether or not concentrated or containing added sugar or other sweetening matter, or containing added flavored fruit, nut or cacao):
04.04 (1)	Whey, (whether or not concentrated or containing added sugar or other sweetening matter); Products consisting of natural milk ingredients (whether or not containing added sugar or other sweetening matter), not elsewhere specified or included in recipe):
04.05 (1)	Butter and other fats and oils obtained from milk; dairy spreads:
04.06 (1)	Cheese and curdled products
0504.00 (2)	Intestines, bladders and stomachs of animals, whole or in parts (except fish) (fresh, chilled, frozen, salted, pickled, dried or smoked) (ruminant animals only)
0506.90.00.00.00	Others (ruminant animals only)
0507.90	Dust debris from horns, nails, hooves, claws, beak etc. (ruminant animals only)
0510.00	Gray amber, beaver testicle, musk; cantharid and bile, glands and other animal substances used in the preparation of pharmaceuticals (Only for ruminant animals)
0511.10.00.00.00	Bovine semen
0511.99.10.00.00	Sinew and tendons; scraps of untanned skins, etc. (Only for ruminant animals)
0511.99.85.90.11 ⁽³⁾	Animal blood (whether or not dried) (Only those belonging to ruminant animals)
0511.99.85.90.13	Offal to be used in animal feed (ruminant animals only)

0511.99.85.90.18 ⁽⁴⁾	Others (ruminant animals only)
1502	Bovine, sheep or goat fat (other than those in 15.03)
1506.00	Other animal fats and oils and their fractions (ruminant animals only)
1601.00	Sausages and similar products of meat, offal or blood and food preparations based on these products (ruminant animals only)
16.02	Prepared or preserved meat, offal or blood (excluding sausages and similar products) (Ruminant animals only)
1603.00	Extracts and juices of meat, fish, crustaceans, molluscs and other aquatic invertebrates (Ruminant animals only)
2301.10.00.00.14 ⁽³⁾	Flours, meals, pellets and cartilage, of meat or offal of ruminant animals; unsuitable for eating
2301.10.00.00.18 ⁽³⁾	Flours, meals, pellets and cartilage, of meat or offal of other animals; unsuitable for eating (Ruminant animals only)
3101.00	Animal or vegetable fertilizers (Only raw manure for ruminant animals)
3105.10	In tablets or similar forms or in packages with a gross weight not exceeding 10 kg (Ruminant animals only)
41.01 ⁽⁴⁾	Raw hides and skins of cattle (including buffalo) or equidae animals (wet or salted, dried, limed, pickled or otherwise preserved but not tanned, parchment or further processed) (whether or not dehaired or cut into pieces): (excluding skins of horses)
4102.10 ⁽⁴⁾	Raw skins of sheep and lambs with wool
4102.29 ⁽⁴⁾	Raw skins of sheep and lambs without wool
4103.90 ⁽⁴⁾	Raw hides and skins of other animals
43.01 ⁽⁴⁾	Raw furs (excluding raw hides and skins of in 41.01, 41.02, 41.03) (Ruminant animals only)
51.01 ⁽⁵⁾	Wool and fleece (not carded or combed)
51.02 ⁽⁵⁾	Fine or coarse animal hair (Only those belonging to ruminant animals)
51.03 ⁽⁵⁾	Scraps of fine or coarse animal hair (including yarn waste) (excluding those obtained by scutching)

Those using one of the following procedures for inactivation of PPRV are not within the scope of prohibition;

(1): -Milk and cream intended for human consumption;

- a. Those applied a minimum temperature of 132°C for at least one second (ultra high temperature: [UHT]) or
- b. A minimum temperature of 72°C for at least 15 seconds with a pH greater than at least 7.0 (high temperature - short-term pasteurization [HTST]), or
- c. Those with a pH of 7.0 or greater and HTST treated twice.

- Milk for animal consumption;

- a. HTST process applied twice; or
- b. HTST, additional heating to at least 72°C in combination with drying or maintaining pH 6 for at least one hour by another physical treatment or

- c. UHT, combined with another physical process specified in (b) above.

(²) Intestinal Cover:

Treatment for at least 30 days with dry salt (NaCl) or saturated brine ($a_w < 0.80$) or phosphate-added salt containing 86.5% NaCl, 10.7% Na₂HPO₄ and 2.8% Na₃PO₄ (w/w/w) or as saturated brine ($a_w < 0.80$) and maintained at 20°C or higher all this time.

(³): Blood, Meat, Bone, Horn and Nail Meal:

Those heat-treated for a minimum of 30 minutes until the core temperature reaches at least 70 °C

(⁴): - Skin and hides;

- a. Those treated with salt (NaCl) containing 2% sodium carbonate (Na₂CO₃) for at least 28 days or;
- b. Semi-processed hides and skin (calcified skin, pickled skin, wet blue and crust skin)

(⁵): Wool and Hair;

- a. Industrial washing consisting of immersing the wool in a series of baths of water, soap and sodium hydroxide (soda) or potassium hydroxide (potash) or
- b. Chemical hair removal by means of slaked lime or sodium sulfide;
- c. Fumigation with formaldehyde in an hermetically sealed chamber for at least 24 hours;
- d. Industrial washing consisting of dipping the wool in a water-soluble detergent kept at 60-70°C;
- e. Wool stored at 4°C for four months, at 18°C for four weeks, or at 37°C for eight days

NOTE: Animal products marked with (¹), (²), (³), (⁴), (⁵) within the scope of the prohibition can be imported provided that they are subjected to one or more of the treatments specified in (¹), (²), (³), (⁴), (⁵) (treatment will be clearly stated) and that it is stated in the Health Certificates to be issued by the Veterinary Services of the exporting country that all necessary precautions have been taken against the contamination of these products by peste de petits ruminants virus after the procedure.
