Specific Comment:

We need to expand the definition of lot to include 'static lot' as stated below

Static Lots

A static lot can be defined as a large mass of cereals/cereal-based product contained either in a large single container such as a wagon, truck or railcar or in many small containers such as sacks or boxes and the cereal/cereal-based product is stationary at the time a sample is selected

AGENDA ITEM 6: DISCUSSION PAPER ON ELABORATION OF PROCEDURES FOR REGULAR UPDATING OF METHODS

Specific comment:

We have no objection to include POD as necessary information for qualitative methods.
