**Legislation:** [Commission Implementing Regulation \(EU\) 2023/594](#) of 16 March 2023 laying down special disease control measures for African swine fever was adopted by the Commission based on the [Regulation \(EU\) 2016/429](#) ("Animal Health Law"). Special control measures for African swine fever apply in the Union in addition to rules for the prevention and control of certain listed diseases laid down in [Commission Delegated Regulation \(EU\) 2020/687](#).

**EU zoning measures:** based on the epidemiological situation of African swine fever, the areas affected by that disease in relevant Member States are listed as restricted zones I, II and III in Annex I to [Commission Implementing Regulation \(EU\) 2023/594](#), while the areas identified at Union level as protection and surveillance zones or, in the case of wild porcine animals, as an infected zone are listed in Annex II to that Regulation. The latest specific zoning measures that have been taken with respect to evolution of the African swine fever situation in the Union are included in [Commission Implementing Regulation \(EU\) 2023/1485 of 18 July 2023](#) amending Annex I to [Commission Implementing Regulation \(EU\) 2023/594](#) as regards special disease control measures for African swine fever.
